Ljubljana

Ljubljana is the capital of Slovenia, Ljubljana is sometimes called 'little Prague' or 'new Prague', and indeed resembles the larger Czech capital. Let this lively city seduce you, enjoy the authenticity of the old town with its many squares and monuments and the small scale of the center, where all major attractions are within easy reach. Ljubljana is more and more popular with tourists. That this popularity is completely right, you should see with your own eyes!

For more and updated information regarding the scientific program and information about the congress and Ljubljana, please visit: www.essm.org | www.essm-congress.org

DEADLINES

- ▶ Early Bird Registration Fee: **31 October 2018**
- ▶ Abstract Submission: **15 October 2018**

21st CONGRESS OF THE EUROPEAN SOCIETY FOR SEXUAL MEDICINE

14 – 16 February 2019 | Ljubljana, Slovenia

Dear Colleagues, Dear Friends,

On behalf of the European Society for Sexual Medicine (ESSM) and the Society for Sexual Medicine of Slovenia (SSMS) it is a great pleasure for us to welcome you all to the 21st Congress of the ESSM in Ljubljana, which will be held in February 14 – 16, 2019.

In 2019 the slogan is **“ESSM family goes Slovenia”** to celebrate its annual congress and to update you on the latest and most fascinating findings and achievements in Sexual Medicine. The leading experts in Sexual Medicine will share with you how recent research findings may translate into clinical applications and how clinical findings will finally support and enrich your daily medical practice for the benefit of the million sufferers from any kind of sexual problems.

With the long-standing tradition of ESSM our priority of the annual congress is the educational program aiming at training of young colleagues and to intensify the knowledge of advanced colleagues in special topics of interest. But also to build the bridges between the generations. This is what ESSM extremely stands for: the mixture of pioneers and leaders as well as new upstarts in the field of Sexual Medicine is the secret recipe of the permanently successful story of the ESSM congresses. The content of the congress will cover topics regarding both sexes and all sexual orientations. State-of-the-art educational opportunities and the newest innovative research will be highlighted. To achieve this, the faculty will include renowned experts and up-coming stars in our field.

Besides an attractive scientific congress program, this is the first time that ESSM congress will take place in former east European country. This is an excellent opportunity to support the development of sound sexual medicine knowledge and awareness in Slovenia. Society for Sexual Medicine of Slovenia (SSMS) was founded in 2006 and aim to encourage the highest standards in clinical practice, education and research among the health professionals as well as promoting different issues concerning the sexual health among the general population.

The Local Organizing Committee will strive to make the importance of the congress evident to the public and to the scientific and health care authorities. But also welcome you with warm hospitality and nice atmosphere.

Don't miss this chance and join us in Ljubljana 2019 for a further memorable ESSM congress. You will enjoy and never forget!

Yacov (Cobi) Reisman
ESSM President

Dejan Bratus
Local Chair
